

The National Assessment of Educational Progress (NAEP) assesses reading in two content areas in grade 4: reading for literary experience and to gain information. The NAEP reading scale ranges from 0 to 500.

Overall Reading Results for the District of Columbia

- In 2007, the average scale score for fourth-grade students in the District of Columbia was 197. This was higher than their average score in 2005 (191) and was higher than their average score in 1992 (188).¹
- The District of Columbia's average score (197) in 2007 was lower than that of the nation's public schools (220).
- Of the 52 states and other jurisdictions that participated in the 2007 fourth-grade assessment, students' average scale score in District of Columbia was lower than those in 51 jurisdictions.²
- The percentage of students in the District of Columbia who performed at or above the NAEP *Proficient* level was 14 percent in 2007. This percentage was greater than that in 2005 (11 percent) and was greater than that in 1992 (10 percent).
- The percentage of students in the District of Columbia who performed at or above the NAEP *Basic* level was 39 percent in 2007. This percentage was greater than that in 2005 (33 percent) and was greater than that in 1992 (30 percent).

Percentages at NAEP Achievement Levels and Average Score

^a Accommodations were not permitted for this assessment.

NOTE: The NAEP grade 4 reading achievement levels correspond to the following scale points: Below Basic, 207 or lower; Basic, 208–237; Proficient, 238–267; Advanced, 268 or above.

Performance of NAEP Reporting Groups in the District of Columbia: 2007

Reporting groups	Percent of students	Average score	Percent below Basic	Percent of students at or above Basic	Percent of students at or above Proficient	Percent Advanced
Male	48	194 ↑	64 ↓	36 ↑	12	3
Female	52	200 ↑	59	41	16	4
White	6 ↑	258	4	96	74	38
Black	86	192 ↑	67 ↓	33 ↑	9	1
Hispanic	7	206 ↑	45 ↓	55 ↑	15	2
Asian/Pacific Islander	1	‡	‡	‡	‡	‡
American Indian/Alaska Native	#	‡	‡	‡	‡	‡
Eligible for National School Lunch Program	66 ↓	188 ↑	71	29	6	#
Not eligible for National School Lunch Program	34 ↑	216	42	58	29	10

Average Score Gaps Between Selected Groups

- In 2007, male students in the District of Columbia had an average score that was lower than that of female students by 6 points. In 1992, the average score for male students was lower than that of female students by 6 points.
- In 2007, Black students had an average score that was lower than that of White students by 67 points. In 1992, the average score for Black students was lower than that of White students by 62 points.
- In 2007, Hispanic students had an average score that was lower than that of White students by 52 points. In 1992, the average score for Hispanic students was lower than that of White students by 57 points.
- In 2007, students who were eligible for free/reduced-price school lunch, a proxy for poverty, had an average score that was lower than that of students who were not eligible for free/reduced-price school lunch by 28 points. This performance gap was narrower than that of 1998 (42 points).
- In 2007, the score gap between students at the 75th percentile and students at the 25th percentile was 51 points. In 1992, the score gap between students at the 75th percentile and students at the 25th percentile was 52 points.

Reading Scores at Selected Percentiles

NOTE: Scores at selected percentiles on the NAEP reading scale indicate how well students at lower, middle, and higher levels performed.

Rounds to zero.

‡ Reporting standards not met.

* Significantly different from 2007.

↑ Significantly higher than 2005. ↓ Significantly lower than 2005.

¹ Comparisons (higher/lower/narrower/wider/not different) are based on statistical tests. The .05 level was used for testing statistical significance. Statistical comparisons are calculated on the basis of unrounded scale scores or percentages. Comparisons across jurisdictions and comparisons with the nation or within a jurisdiction across years may be affected by differences in exclusion rates for students with disabilities (SD) and English language learners (ELL). The exclusion rates for SD and ELL in District of Columbia were 11 percent and 4 percent in 2007, respectively. For more information on NAEP significance testing see <http://nces.ed.gov/nationsreportcard/reading/interpret-results.asp#statistical>.

² "Jurisdictions" refers to states and the District of Columbia and the Department of Defense Education Activity schools.

NOTE: Detail may not sum to totals because of rounding and because the "Information not available" category for the National School Lunch Program, which provides free and reduced-price lunches, and the "Unclassified" category for race/ethnicity are not displayed. Visit <http://nces.ed.gov/nationsreportcard/states/> for additional results and detailed information.
